PROFILE

As a college student, I recognize that I may still have room to grow in certain skills. However, I am eager to bridge that gap and am confident that the abilities I bring to the table are a strong foundation for collaboration. I am deeply committed to delivering tangible results and am prepared to tackle any task entrusted to me. If there are skills I haven't mastered yet, I am enthusiastic about learning them. I view challenges as invaluable learning opportunities, and with the support of your institution/organization, I am eager to enhance my skills and contribute meaningfully to our shared goals.

SKILLS

- Proficiency in HTML, CSS, JavaScript, C++, Java, and Flutter for developing responsive web and mobile applications.
- Capable of handling productivity and typing-based tasks efficiently.
- Skills in meme creation, image editing, video editing, and utilization of tools such as Photoshop, Capcut, Filmora, and Premiere Pro.
- Proficient in Microsoft Word, PowerPoint, and Excel for effective document creation and data management.
- Knowledgeable in utilizing AI tools for tasks such as text revision and enhancement.
- Consistently completes tasks within designated timelines.
